

Top Ten Report - September 2022

Reviewed & submitted the following meets to the national database:
MVN September 'Last Chance' LCM in September.

I had Robert Mitchell re-post a couple SCM corrections to SPMS All-Time Top 10 that were sent to me.

I have completed and submitted the SPMS All Time Individual and Relay T10 for last year's SCY. Also done and submitted are the SPMS Records (Individual + Relay) for both Age Group and Event. Robert will be posting these shortly.

Please note: No USMS times swum in LCM Time Trials -OR- in LCM Finals (in a Prelims and Finals meet) can be used for Top 10 or for USMS or FINA records. This is both a FINA and USMS rule.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.
